## PROFESSIONAL SUMMARY

Full Stack Java Developer with 2+ years of experience building scalable web and mobile applications. Strong expertise in Spring Boot, Angular 16, Node.js, REST APIs, and Linux deployment. Experienced in eCommerce, POS, and reservation-based enterprise systems with end-to-end ownership.

## TECHNICAL SKILLS

- Java 8/11, Spring Boot, Spring Security, Hibernate, Node.js
- Angular 16, JavaScript, TypeScript, HTML, CSS, Bootstrap
- PostgreSQL, MySQL, MongoDB
- REST APIs, JWT Authentication
- Git, Maven, Jenkins (Basics), Docker (Basics)
- Linux Server Deployment, SSL, DNS Configuration
- Ionic & Capacitor (Hybrid Mobile Development)

## PROFESSIONAL EXPERIENCE

### ***WorkLooper Consultant Private Limited***

Full Stack Java Developer | Feb 2025 – Present

- Developed enterprise eCommerce systems using Spring Boot and Angular 16.
- Built role-based dashboards (Admin, Vendor, Merchant) and complex order workflows.
- Managed Linux production servers, SSL setup, DNS configuration, and deployments.
- Handled complete project lifecycle from architecture design to production support.

### ***Xapotech Systems Pvt Ltd***

Java Developer (Trainee) | Nov 2023 – Jan 2025

- Developed Bus Ticket Booking system using Java 8, Spring Boot, Hibernate.
- Implemented REST APIs with JWT authentication and authorization.
- Designed MySQL schema and optimized search/indexing functionality.
- Integrated email services with PDF attachments for booking confirmations.

## PROJECTS

- **OrderApp – Garment eCommerce Platform** (Spring Boot, Angular, PostgreSQL): Developed complete role-based eCommerce system with vendor management, QR tracking, order lifecycle handling, reporting dashboards, and production deployment for large garment events.
- **AlterMaster – Garment Alteration Management System** (Node.js Backend, Angular Frontend): Built a workflow-based alteration platform where Admin collects customer alteration requirements and assigns tasks to Masters. Masters receive assigned work, update alteration status, and communicate completion details back to Admin. Implemented role-based access control and structured REST APIs.
- **POS – Retail Billing & Inventory System** (Java/Node.js, PostgreSQL): Created billing and inventory management system with barcode/QR integration, real-time stock updates, sales reporting, and receipt generation for retail operations.
- **Mobile Applications – Android & iOS** (Ionic & Capacitor): Developed hybrid mobile applications with authentication flows, API integration, and production build deployment for OrderApp and POS systems.

## EDUCATION

- B.Tech – Electrical Engineering | Ramgarh Engineering College | 2019–2023 | 88%
- Class 12 – Sri Prakash Vidya Niketan | 61%
- Class 10 – Sri Prakash Vidya Niketan | 8.8 CGPA
